DISCUSSIONS AND OBSERVATIONS

The following observations resulted after extensive discussions and deliberations of all present during the Committee Hearing, to wit:

1. There are ninety-six (96) existing Health Centers in Batangas City that are duly recognized, those that don't have Health Centers, mostly from Poblacion area, are being catered by the City Health Office;
2. The budget needed for the City Disaster Risk Reduction and Management - Health Plan 2020-2025 required an annual allocation or once for every five years depending with the classification of expenditure;
3. The Batangas City Disaster Risk Reduction and Management Council (CDRRMC) approved the above mentioned plan during their 3rd Quarter Meeting on September 30, 2022, copy of the Resolution by the CDRRMC shall be submitted to the Sangguniang Panlungsod as supporting document prior to the approval of the City Disaster Risk Reduction and Management - Health Plan 2020-2025;
4. A Table of Content shall be included in the final copy of the Plan;
5. Since the Plan has generic classification, any medical emergency could be catered including but not limited to pandemics and epidemics;
6. Batangas City has its own isolation facility located in Bolbok, Batangas City with forty beds, should the need arises, it is more practical for the city to just rent.

RECOMMENDATIONS

In accordance with the proceedings and based on the observations by the Joint Committee, the Committee on Fire and Risk Reduction and Committee on Health propose following recommendations:

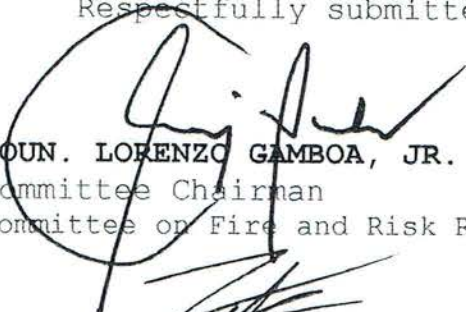

1. The adoption of this Committee Report; and
2. The approval of the Resolution hereto attached.
