FOREWORD

The Batangas City Socio-Economic, Physical and Political Profile is a document containing all the important data and information about the City of Batangas. It includes not only the historical background, physical and geographical, social and cultural aspects but also information about its population and demographic characteristics, facilities, business establishments as well as the resources available in the locality.

This profile also includes information regarding education, housing, recreation, tourism, agriculture, trade and commerce, industries and the labor force.

This document which is of vital importance to policy makers, planners, businessmen, potential investors, and students is therefore presented with great pride.

ACKNOWLEDGMENT

The preparation of the Batangas City's Socio-Economic, Physical and Political Profile would not have been made possible without the wholehearted support of the Batangas City Government headed by the Honorable City Mayor Eduardo B. Dimacuha and the Sangguniang Panlungsod.

Our heartfelt gratitude to the different national/city government offices and the private sector, non-government organizations, commercial establishments, educational institutions, private businesses, industrial establishments, and all those who in one way or another supported us by providing the needed data being requested from their respective agencies.

To all those who were not mentioned but contributed a lot to the production of this document, our sincerest appreciation and gratitude.

THE OFFICE OF THE CITY PLANNING
AND DEVELOPMENT COORDINATOR

1. HISTORICAL BACKGROUND

Spanish missionaries first set foot in Batangas City in 1572. The settlement was founded in 1581 and named "Batangan" because of the numerous big logs that abounded the Calumpang River. The logs were called “batang” by the natives who settled near the river and called the settlement "Batangan". This name was modified and became Batangas in 1601. Don Agustin Casilao was appointed as the first Gobernadorcillo. Since 1754, the city has been the capital and administrative center of the province. Batangas became a city in 1969 through Republic Act. No. 5495.

The following dates marked the significant events/activities which shaped the growth and development of Batangas City.

1581	- The first Roman Catholic Church was built.
1902	- Batangas High School was established which is now known as the Batangas National High School.
June 19, 1909	- The Batangas Municipal Hall was inaugurated.
July 04, 1909	- Civil Government was established under the American Regime.
June, 1910	- The Batangas Trade School was formally opened. Known now as the Batangas State University formerly Pablo Borbon Memorial Institute of Technology.
July 25, 1915	- Plaza Mabini was inaugurated.
December 12, 1941	- Japanese planes bombed and totally destroyed the Batangas Airport in Barangay Alangilan.
February 13, 1948	- Batangas Catholic Church was elevated to the status of Basilica Minor of Infant Jesus and Immaculate Conception.
June 21, 1969	- Republic Act No. 5495 creating Batangas City was signed into law by the late President Ferdinand Marcos.
July 23, 1969	- Batangas City Government was formally organized.

2. PHYSICAL AND GEOGRAPHICAL ASPECTS

2.1 Location, Accessibility and Area

The City of Batangas is a coastal city lying in a covelike shape at the south-eastern portion of Batangas Province and geographically situated at coordinates 13 degrees, 45 minutes and 25.96 seconds north latitude and 121 degrees, 3 minutes and 29.2 seconds east longitude. It is bounded on the northwest by the municipality of San Pascual; on the north by the municipality of San Jose; on the east by the municipalities of Ibaan, Taysan and Lobo; and on the south by the Batangas Bay.

Batangas City, the capital of Batangas Province has a total land area of approximately 28,541.44 hectares. It is approximately 112.00 kilometers away from Manila and can be traveled by land for 2½ hours and by water for eight (8) hours. The city is almost equidistant from Batanes in the north and Jolo in the south.

2.2 Terrain

Batangas City has a rolling terrain that ranges from 0% to 30% in slope. Its highest point is Mount Banoy in Barangay Talumpok Silangan which is 968 meters above sea level and about 13.50 kilometers east of the Poblacion. The city's coastal barangays starting from Sta. Rita Aplaya from the north down to Ambulong on the south are nearly level at 0% to 3%.

In the east beyond the barangays of Mabacong, Simlong and Pinamucan Ibaba, the slope rises from 8% to 30%. The Matuco Point at the southwest tip of the city along the Batangas Bay has a slope of 30%. To the immediate south is Verde Island composed of six (6) barangays which is mountainous and with a slope ranging from 3% to 30%.

Slope and Land Area Percentage Distribution

SLOPE	LAND AREA	PERCENTAGE SHARE
0% - 3%	6,578.80	23.05%
4% - 8%	10,902.83	38.20%
9% - 15%	3,462.08	12.13%
16% - 30%	7,166.76	25.11%
31% - over	328.23	1.15%
Swamps & Fishpond	102.74	0.36%
TOTAL	**28,541.44**	**100.00%**

2.3 Climate Condition

Batangas City is generally coolest during the months of December to January with temperature ranging from 22ºC to 26ºC. The mean temperature rises and attains a maximum of 36 degrees Celsius (36ºC) in May. The month of July marks the steady fall of temperature.

The driest months in Batangas City are from January to April, with the average monthly rainfall of less than 50 mm per month. The northeast monsoon "*amihan*" prevails starting the months of November up to April. Although originally moist, it becomes comparatively drier after crossing the Sierra Madre Range to the north and east of Batangas, thus attributing for predominantly dry weather during this period. By May to the later part of October, the situation is reversed. The southwest monsoon "*habagat*" prevails bringing with it considerable rain. A pronounced maximum rain period occurs in Batangas during the months of June, July, August and September when southwest monsoon flow is steadiest and the average monthly rainfall is 275 mm per month. By the end of October, the northeast monsoon starts to set again. However, the months from October to December are not characterized by dry weather as compared to the months from January to April. This is partly due to the fact that typhoons and depressions most frequently affect the city during the months from October to December.

2.4 Soil Types and Location

There are seven (7) types of soil that composed the land area of Batangas City. Their types, location and agricultural potentials are as follows:

2.4.1	**Type of Soil**	: Taal Sandy Loam
	Location	: Sta. Rita Karsada, Sta. Rita Aplaya, Sta. Clara and Cuta
	Agricultural Potentials	: corn, citrus, sugar cane, fruit trees
2.4.2	**Type of Soil**	: Hydrosoil
	Location	: Calicanto and Wawa
	Agricultural Potentials	: saltbeds and fishponds
2.4.3	**Type of Soil**	: Calumpang Clay Loam
	Location	: Libjo, Poblacion and Pallocan
	Agricultural Potentials	: Sugar Cane
2.4.4	**Type of Soil**	: Ibaan Clay Loam
	Location	: Pinamucan, Mahabang Dahilig, Malalim, Sirang Lupa, Conde, Talumpok Kanluran/Silangan, Sto. Niño, Tulo, Paharang
	Agricultural Potentials	: sugar cane, upland crops, rice and intercrops

2.4.5	**Type of Soil**	:	Ibaan Loam
	Location	:	Balete, Concepcion, Bucal, Mahabang Parang, Sorosoro, Tingga, Banaba, Balagtas, Alangilan, Bolbok, Kumintang, San Pedro, Dumantay, Dalig, Gulod, Sampaga, San Isidro, Ambulong and Tabangao Aplaya
	Agricultural Potentials	:	sugar cane, upland rice, corn, vegetables, coffee, bananas, fruit bearing trees
2.4.6	**Type of Soil**	:	Ibaan Loam (Gravely Phase)
	Location	:	Talumpok Kanluran/Silangan, Conde, San Miguel, Sto. Niño, Tabangao Dao, Haligue, Talahib Payapa, Talahib Pandayan, Mabacong, Ilijan and Dela Paz
	Agricultural Potentials	:	coconut, atis, cacao and coffee
2.4.7	**Type of Soil**	:	Sibul
	Location	:	Isla Verde
	Agricultural Potentials	:	upland rice, peanuts and vegetables

2.5 Mineral Resources

Several mineral resources can be found in the city and some of the deposits have not yet been extracted. Traces of metallic mineral like gold and non-metallic mineral like gypsum are being detected in the mountainous area of barangays Sto. Domingo and Cumba respectively.

Saltbeds originally existed abundantly in Barangays Sta. Clara and Malitam but rapid urbanization and the expansion/development of the Batangas Port likewise resulted to the end of this industry.

2.6 Forestry

The forest resources of Batangas City are not in commercial quantity except for bamboo which are in demand for use in the construction of fish pens.

Marginal forest lands can be found mostly in the barangays of Talumpok Silangan (where Mt. Banoy is located), Talahib Payapa, Sto. Domingo, Cumba and along the boundary line with the municipality of Lobo.

2.7 Land Use

The land use of the city has considerably changed from 1946 to 1981 from a major agricultural use to a rapidly developing major urban center and from 1981 up to the present to a major urban commercial and industrial center.

LAND CLASSIFICATION	AREA (HAS)	SHARE (%)
Primary Urban (Res./Comm'l.)	625.72	2.26
Secondary Urban Core (Res./Comm'l./Ind'l.)	1,755.35	6.35
Gen. Dev't. Area (Res./Comm'l./Light Industry)	4,105.72	14.86
Socialized Housing Area	446.42	1.62

T O T A L	**28,541.44**	**100.00**

SOURCE : **Zoning Division, OCPDC Batangas City**

2.8 Water Resources

Batangas City is traversed by several streams that converge at the Calumpang River which in turn flows into the Batangas Bay.

Calumpang River is a perennial body of water with a catchment area of approximately 472.00 square kilometers. The river forms the southeastern boundary of the Poblacion and it flows into the Batangas Bay at a point approximately two kilometers south of Batangas Port.

There are several springs in Batangas City that have sufficient volume of discharge to suffice the needs of nearby residents for their water supply requirements. These can be found in Barangays Talumpok Kanluran & Silangan, Cumba, Sto. Domingo, Talahib Pandayan, Talahib Payapa, Ilijan, Malibayo, Bilogo, Haligue Kanluran, Haligue Silangan, Sto. Niño, Maruclap and Conde Itaas.

3. SOCIAL ASPECTS

3.1 Population

For the year 2006, the projected population of Batangas City based from CY 2000 POPCEN of the National Statistics Office (NSO) is 299,096 with an annual growth rate of 3.39%. By referring to Table 1, it can be noted that Brgy. Sta. Rita Karsada has the biggest population of 16,835 while Barangay 16, an urban barangay has the smallest population of 116.

3.1.1 Male - Female Ratio

The average ratio of male to female population of the whole city is 0.99:1.00 with the female population slightly higher. Out of the 105 barangays, 51 barangays have higher male population, 53 barangays have higher female population and one barangay, Malitam has equal male-female population.

3.1.2 Population Density

With a land area of approximately 28,541.44 hectares and a total population of 299,096 the city has a population density of 10.48 persons per hectare or 1,048 persons per square kilometer. The population density of the entire city is far below the population density of the poblacion which is 221 persons per hectare.

3.1.3 Urban-Rural Distribution

In addition to the 24 barangays in the Poblacion are the 17 urbanizing barangays, namely, Alangilan, Balagtas, Bolbok, Calicanto, Cuta, Gulod Itaas, Gulod Labac, Kumintang Ibaba, Kumintang Ilaya, Libjo, Malitam, Pallocan Kanluran, San Isidro, Sta. Clara, Sta. Rita Aplaya, Sta. Rita Karsada and Wawa. These barangays are situated within the immediate periphery of the poblacion.

Urban population is 169,124 while rural population is 129,972 representing 57% and 43% respectively of the total city population.

3.2 Household Characteristics

Batangas City has a total projected households of 60,658 for CY 2006. Out of this figure, 4,988 or 8% reside in the poblacion. The projected average household size in the city for CY 2006 is five (5).

Barangay Sta. Rita Karsada has the highest household number of 3,410 while Barangay 16 in the Poblacion has the lowest household number of 25.

3.2.1 Average Income/Expenditure Per Household

Based on the final results of the 2000 Family Income and Expenditure Survey (FIES) by the National Statistics Office, the average income per household is P180,912.00 per annum or P15,076.00 per month while the average expenditure per household is P174,837.00 per annum or P14,569.75 per month based at the current prices.

3.3 Civil Registration Statistics

3.3.1 Birth and Death

As per the record of the Office of the City Civil Registrar, a total of 8,272 babies were born and 2,092 persons died in CY 2006. Statistics showed that in both birth and death registries, the males have always the higher number while in the case of fetal death, out of 45 fetal deaths, males have the higher number which is 29 (see Table 10).

Table 12 shows that for all age bracket ages 81-90, 91-100 and 101-110 male deaths is dominant over the female. Age bracket of 81-90 has the highest number of death with the total of 142 or 7%.

3.3.2 Fertility Rate

The total fertility rate or the number of children born to a woman was projected to decrease from 3,230 children per thousand women in 1995 to 2,811.7 as of the year 2000.

3.3.3 Life Expectancy at Birth

As of year 2000, the estimated life expectancy at birth for most Batangas City residents is 66 years for male and 73 years for female.

3.3.4 Marriage

Total marriages in CY 2006 were 1,824. Of this number, church weddings were 1,324 and civil weddings were 500. With this figure, it only shows that majority of the Batangueños still believe in the sanctity of marriage.

TABLE 1. POPULATION PROJECTION ESTIMATED DISTRIBUTION BY BARANGAY AND BY SEX

3.4. EDUCATION

3.4.1 Basic Statistics

Batangas City is considered as the center of learning not only in the province but also in the whole Region IV-A (CALABARZON). All levels of education are available in the various learning institutions located in the city. Total enrollment for SY 2006-2007 were registered at 97,985 wherein 61,855 or 63% were in public schools while 36,130 or 37% were in the private schools (see Table 18).

3.4.2 Pre-Schools

There are about 5,784 pre-schoolers in Batangas City. Statistics revealed that enrollment of pre-schoolers in the public schools is higher than the enrollment in the private schools. For SY 2006, enrollment in public schools is 3,219 or 56% while private schools have 2,565 or 44%.

Statistics also revealed that the actual ratio between the numbers of classroom and teacher is higher than the national standard. However, this is being remedied by shifting of classes among pre-schoolers. They are being scheduled for only 3 to 4 hours per day or three shifts a day.

In addition to the pre-schoolers, on Table 26 there are about 5,556 day care children enrolled in the 104 day care centers which were established by the city government in the different barangays of the city. These day care centers are being supervised by the Office of the City Social Welfare and Development.

3.4.3 Elementary Level

The total elementary enrollment for SY 2006-2007 is 41,143. Of this enrollment, 34,399 or 84% are enrolled in the public schools while 6,744 or 16% are enrolled in the private schools.

There are about eighty-three (83) public elementary schools in the city's five (5) districts and in one (1) state university. In addition, there are thirty (30) private schools offering elementary education. St. Bridget College has the highest enrollment among the private schools offering elementary level curriculum which has 1,804 students or 26% of the total enrollment.

For school year 2006 - 2007, the enrollment in public elementary schools is 34,399 or 84% of the total. The public elementary schools in Batangas City are clustered into five (5) districts namely:

New District

Cuta (JAPMES)

3.4.4 Secondary Level

There are fifteen (15) public and fifteen (15) private secondary schools in the city.

A total of 23,112 comprised the student population in the secondary level. Of this number, 16,968 students or 73% were enrolled in the public schools while 6,144 students or 27% in the private schools.

Batangas National High School, which was established in 1902 under the American Regime and the oldest public secondary school in the city has the highest enrollment registered at 10,022 students while University of Batangas has 2,940 students, the highest enrollment for private shools offering secondary courses.

3.4.5 Tertiary, Post Graduate and Vocational Schools

For SY 2006-2007, the Lyceum of Batangas, a privately owned institution which offers different courses, has the highest enrollment of 8,407 college students or 40% of the total enrollment followed by Batangas State University, which has 5,939 or 28% and the University of Batangas which has 5,392 or 25%.

It is worthwhile to note that the Colegio ng Lungsod ng Batangas which was established by the Batangas City Government formally opened on June 05, 2006 offering bachelors degree courses in education, commerce (management) and computer programming and two year computer technology course. Iniatially the CLB for CY 2006-2007 has a total enrolless of about 287 students

For SY 2006-2007, the total number of students taking-up post-graduate/masteral degree courses are 648 and those pursuing doctoral degree courses are 35 for a total of 683.

3.4.6 The Batangas City Library and Information Center put up extensions of City Library in the following barangays to address the needs of the students as well as the barangay residents;

Barangay	Name of Librarian/In-Charge
Alangilan	Conchita Sydiongco
Balete	Milagros Escullar
Bilogo	Malyn Villanueva

Simlong	Joy Dela Cruz
Sorosoro Ibaba	Eduviges De Castro
Tabangao Aplaya	Lourdes Carandang
Talahib	Melita Almira
Tinga Labac	Guillerma D. Dimaano

3.4.7 City Facility for Street Children

The city government in cooperation with its sister city of Langenfeld in Germany constructed a Drop-in Center for Street Children located at the DJPMM site in Barangay Cuta. It is being administered by the Office of the City Social Welfare and Development. The center provides basic social services to those below eighteen (18) years old to get them off the street to be united with their families and be integrated to the society. In CY 2005, the center was able to serve fifty-four (54) street children.

3.5. HEALTH AND NUTRITION

The delivery of primary health care services is being undertaken by the City Health Office which provides medical and dental services to the residents of the city's one hundred five (105) barangays. Batangas City has six (6) rural health units with jurisdiction over eighty three (83) Barangay Health Centers. These are regularly manned by doctors, nurses, dentists, midwives, etc. (see Table 27).

The Office of the City Health Officer at the City Hall has daily schedule of providing medical and dental services from Monday to Friday, 8:00 A.M. to 5:00 P.M. The other units are on schedule basis. For CY 2006, 39,749 medical and 44,696 dental patients were benefited by the health programs of the city government.

There are four (4) big hospitals and four (4) major clinics that are located within the city proper. The services being offered by these hospitals/clinics include out-patients treatment, child delivery, EENT treatment, surgery, internal medicine, pediatric, obstetrics and gynecological treatment, CT Scan, ICU, ultrasound and diagnosis of social diseases.

3.6. HOUSING

3.6.1. Subdivisions

At present, there are eighty-seven (87) residential subdivisions in the city, wherein twenty five (25) were approved by the Sangguniang Panlungsod per R.A. 7160 and the other sixty two (62) were already existing subdivisions prior to the passage of RA 7160. These subdivision lots are being sold with current prices ranging from P2,500.00 to P4,000.00 per square meter.

3.6.2. Informal Settlers

Majority of informal settlers in Batangas City can be found in government lots. Portions of barangay Sta. Clara and the non-functional railroad track of the Philippine National Railways from Barangay 24 up to Balagtas are presently occupied by informal settlers.

There are also informal settlers in Varela St., Sitio Ferry in Kumintang Ibaba, Cuta, Wawa and Tabangao Ambulong.

There are two existing relocation sites in the city which include the San Jose Sico Relocation Site owned by the city government and the Balete Relocation Site which was implemented by the Philippine Ports Authority in collaboration with the Batangas City government and other concerned national government agencies relative to the Batangas Port Development Project.

3.7. CITY SOLID WASTE MANAGEMENT PROGRAM

A total of thirty-nine (39) barangays were included in the service coverage of the solid waste collection program of the city. These were the twenty four (24) poblacion barangays and the following fifteen (15) urban barangays: Cuta, Wawa, Sta. Clara, Malitam, Kumintang Ilaya, Kumintang Ibaba, Alangilan, Balagtas, Balete Relocation Site, Pallocan Kanluran, highway portion of Gulod Labac, Gulod Ibaba (Sampaguita Homes), Calicanto, Bolbok and Sta. Rita Karsada. This means that out of the total population of 299,096, there are approximately 157,578 residents or 53% who are being benefited by the garbage collection service of the city government.

The solid waste management program is being implemented by the Public Service and Maintenance Unit (PSMU) under the City General Services Office. It employed one hundred seventeen (117) street sweepers and sixty (60) truck helpers/crew, twenty six (26) drivers on contractual basis. There were three shifts with eight (8) working hours a day throughout the week. It was estimated that about 250 cubic meters of garbage were being collected daily by six (6) serviceable trucks. The garbage were usually composed of 70% biodegradable wastes and 30% non-biodegradable which were being generated by different commercial establishments, households and from the three (3) public markets. The volume of biodegradable wastes from the new public market were significantly reduced when the city government started the on-site operation of its Material Recovery Facility (MRF). These biodegradable wastes are being processed into organic fertilizers in commercial quantities. Non-biodegradable wastes also included construction debris which were being collected upon request. PSMU is being assisted by the City Solid Wastes Management Board with members coming from the different offices of the city government, non-government and civic organizations in terms of planning and formulation of policies and strategies..

The City Solid Waste Management Program has an annual budget of about sixty six million one hundred seventy four thousand four hundred pesos (P66,174,400.00) for CY 2006.

3.8. PROTECTIVE AND SAFETY SERVICES

3.8.1 Police Protection

In CY 2006, a total of one hundred five (105) crimes were committed in the city. Out of this figure, forty-seven (47) are classified as non-index crimes while those classified as index crimes included murder (24), physical injuries (19), rape (1), theft (1), homicide (7) and robbery (6). With this number reported by the Batangas City Police Office, Batangas City is still considered as one of the most relatively peaceful city not only in the province but as well as in the entire Region IV-A.

Private business and industrial establishments availed the services of private security agencies for their own protective services.

3.8.2 Fire Protection

The Batangas City Fire Station under the Bureau of Fire Protection (BFP) is manned by seventeen (17) regular firemen and one (1) non-regular personnel. The City BFP office has three (3) firetrucks which are fully equipped with various fire fighting equipment. The firetrucks are augmented by two (2) firetrucks of the Batangas Filipino-Chinese Chamber of Commerce. There are forty six (46) fire hydrants installed by the Batangas City Water District which are stratigically located in the Poblacion, Cuta, DJPMM, Alangilan and Sta. Rita Karsada along the national highway, PPA Compound and the vendors' section at Port Area to support the fire fighting capability of the city government.

In addition to the BFP firetrucks and equipment the Batangas City government has an standby one (1) big firetruck with highrise ladder and two (2) sky lift trucks to augment the BFP capability in fire control and other emergencies.

3.8.3 Jail Management and Penology

Batangas City Jail at San Jose Sico, Batangas City has 15 officers and staff that supervise and manage the activities in the jail. It has 14 cells with a total capacity of 500, as of Decemebr 31, 2006, the city jail has 230 inmates. (Please see Table 47 for Jail Facilities and Table 48 for the Number of Inmates and Causes of Imprisonment)

3.8.4 Disaster/Calamity Response Capability

To effectively respond to the damages caused by calamities like typhoon, earthquake and other forms of man-made disasters, the city government of Batangas has created and strengthened the City Disaster Management Coordinating Council which is headed by the City Mayor. The council also has formulated contingency plans to mitigate damages to life and property that will be caused by these unforeseen calamities.

The CDMCC has acquired motorized rubber boats from the NDCC, different emergency response equipment such as life jackets, chain saws, flashlights and other vital devices to be used during emergencies.

On September 18, 2000 through the United Nations Development Program (UNDP) a Digital Piezomagnetic Stress Instrument was installed at the office of the Veterinarian and Agricultural Services compound. This instrument will provide monitoring data regarding a possibility of earthquake occurrence within a specific area.

3.9. RECREATION

The city's recreational facilities include the following:

- commercial bowling lanes & one (1) private (Shell Refinery, exclusive)
- 1 private company owned golf course
- 1 exclusively owned & 6 commercial swimming pools
- 2 cockpit arenas
- 4 billiard halls
- 7 movie houses (all air-conditioned)
- 7 tennis courts (5 privately owned & 2 for commercial use)
- 8 commercial complexes
- 3 resorts
- 1 country club
- 1 target shooting range
- 6 fitness/dance centers
- 2 badminton courts

In addition to the above-mentioned facilities, there is a public basketball court in almost every barangay of the city. For other sports and similar activities, the residents can avail the facilities of the Batangas State University gymnasium, the City Hall People's Quadrangle and the Provincial Sports Complex located at Barangay Bolbok..

For the track and field events, the residents can avail the facilities of the Batangas National High School ground and the Provincial Sports Complex..

The development of the former Quezon Memorial Stadium into the Batangas City Sports Complex is presently on-going. At present, the Phase I of the grandstand was constructed already. Basketball and volleyball courts and baseball/softball diamonds were already finished and are being used during the holding of annual city school meet. A four thousand five hundred (4,500) seating capacity coliseum was inaguarated last December, 2006.

Programs concerning sports development are being promoted and supported by the city government thru the City Council for Youth Affairs (CCYA), the barangay councils and the Sangguniang Kabataan in coordination with the different socio-civic organizations in the city.

The city has seven (7) air-conditioned movie houses (Bay Cinama 1&2, Rhoda Theater and SM Cinema 1-4) wherein most of the movies being shown here are simultaneously shown in Metro Manila.

3.10. TOURISM

3.10.1 Man-made Park

It may be home to the country's international port and has recently been named as the most livable "mid-sized" city nationwide for 2005, but the first thing that strikes a visitor upon reaching the heart of Batangas City (two hours' drive from Manila) is its people's park, the Plaza Mabini which was first built in 1951 and redesigned in 1964 and was improved and renovated in 2004.

The two-hectare park, like the many (but with varied sizes) found nationwide, is indeed a reminder of the urban planning popularized by our foreign colonizer, the Spaniard-imposed Laws of the Indies wherein towns are centered on the plaza, around which are located the municipal hall, the church, and the mansions of the ilustrados while the indios are moved within hearing distance of *the bajo de la campana*.

Redesigned and redeveloped in 2004 by the world-renowned urban planning firm, Palafox and Associates, Plaza Mabini is comparable to the parks in the country's central business district of Makati, with its shoulder-pacement of interlocking bricks, stamped-concrete pathways, century-old acasia trees and royal palm trees.

Also planted with carabao grass, scarlet beauty and 17 other kinds of plants (creeping Jennifer, white angle, spotted caletea, morning drop and silver wall, among others), the park's Mediterranean landscape is bounded by the main streets of P. Burgos, P. Dandan, Lopez Jaena and M. H. del Pilar.

Directly fronting the Plaza Mabini is the Basilica of the Immaculate Conception built from 1851-1857 with its facade and interior as a stunning model of early Renaissance architecture. On February 13, 1946, by a decree of the Holy Father, Pope Pious XII, the church was elevated to the "Basilica Minor" of the Infant Jesus and Immaculate Conception and was the first Basilica to be vested that honor and privilege in the Philippines and in the entire Far East. Thru the efforts of the Sto. Niño Pastoral Foundation, a religious organization, the Batangas Church Museum was established in honor of the late Msgr. Clemente Yatco.

Precious religious relics and century old books and statues can be found in the said museum.

The Laurel Park within the provincial capitol site is a unique destination located at barangay Kumintang Ibaba, Batangas City.

The Main Gate, situated along the national highway serves as the façade of the Capitol Complex.

Besides the main gate is the Provincial Tourism Office where you can find wood stones that provide useful informations about the province and its personnel maintain tourism data bank and always ready to serve as tourist guides.

The Heroes Promenade is a shrine where the present generation of Batangueños can commune with their illustrious forebears. It is the place to commemorate and perpetuate the memory of great men and women of the province whose lives and labors provide a shining example of Patriotic dedication.

The scultured work of renowed artist Eduardo Castrillo of the five vitues of the Batagueños namely nobility industry, bravery, wisdom and beauty serve as the symbol of the province with a colorful past that also project dynamism, innovativeness and progressive outlook of the Batangueños.

At the center of the park is a musically dancing fountain that is one-of-a-kind in the Philippines. How splendid to watch the fountain dancing to the tune of music from mellow to pop. It is more delightful to see the colorful rays of the fountain when water rises and dances with the music during the evening. The fountain has a circumference of 20.08 meters and contain 0.80 cubic meters water that rises 5-8 meters high.

Adjacent to the fountain is the View Deck where one can have a good sight of the dancing fountain. Underneath the viewdeck is the music and control room. Below the viewdeck is the cascade serving as falls.

Fronting the fountain are concrete and tiled benches with landscape for the convenience of the people strolling at the park. A series of trellis mark the entrance to the Capitol Building. The pavement and boardwalk are constructed with stamped concrete.

The Provincial Capitol Building is nestled at the easternmost part of the park. It was constructed in 1926 and completed in 1928 under the term of the late Governor Modesto Castillo. During World War II, it was destroyed but was subsequently reconstructed in 1946. Destroyed by a bomb explosion in 1950, it was reconstructed in the same year under the administration of the late Governor Feliciano Leviste.

The Marble Terrace is made of granolithic marble highlighted by granite tiles. The province's official seal is engraved at the center fronting the tall flagpole. The two old fountains was restored and now provide accents to the terrace. A guarded parking area is easily accessible.

Laurel Park is enhanced by prominade colorful lights and state of the art landscape and now visited by local tourists, specifically students who use the park for their extra curricular activities.

Other historical landmarks include the Batangas National High School (Circa 1902), St. Bridget College (Circa 1912), Provincial Capitol (Circa 1926) and the Batangas Regional Hospital (Circa 1928) which is now known as the Batangas Regional Hospital.

Several ancestral houses can be found also in the Poblacion which include the Acosta-Pastor and the Rosales-Borbon ancestral homes which are regularly being visited by prominent personalities/visitors from Manila.

The Museo Puntong Batangan was inaugurated in December 2006. It is a beautiful and well-thought-out showcase of how the Batangueños have shaped their history and lifestyle through the years vis-à-vis a number of events. It is located along P. Burgos Street behind the City Library. The museum building with a total floor area of 415 square meters has a combination of modern (one big with no ceiling, like todays depot buildings) and post-contemporary (a revival of the 1930's clean and simple lives ispired by the Bauhaus) architectural design.

3.10.2 Natural Sites

The city has several undeveloped beaches that have potentials to meet the leisure needs of the local folks and the prospective tourists. At present, there is one (1) developed beach resorts that is operating. The Verde Island Resort located at Barangay San Antonio, Isla Verde has three (3) types of guest rooms equipped with private bath, cabled TV and air-conditioning system. The resort also has restaurant and bar, grand pavilion, viewing deck, a swimming pool with hydro massage for adults and kids, diving school and shop. The resort also offers sports and recreational facilities like horseback riding, camping sites, remote control toy cars, race facility, a glass bottom boat, and recreational room. The guests can also enjoy games of billiards, darts, badminton, chess, backgammon, mahjong, table tennis, and outdoor ball games.

Mahabang Buhangin Beach in San Agustin Kanluran, Isla Verde is still undeveloped and can be reached in two hour travel by boat from Tabangao Aplaya which is considered an alternative destination for beach lovers.

Additionally, the slopes of Mt. Banoy and Matoco Point provide a panoramic view of the city and the Batangas Bay.

4. ECONOMIC ASPECTS

4.1 AGRICULTURE

4.1.1 Agricultural Land Use

As per the revised land use plan, the classified agricultural and agroforestry land uses are 25.11% of the city's total land area or approximately 6,939.18 hectares. However, based on the records of the Office of the City Veterinarian and Agricultural Services (OCVAS), the actual total area planted to crops is 7,454.50 hectares.

4.1.2 Crop Production and Consumption Pattern

The staple food of the Batanguenos is rice. In 2006, per record from the OCVAS, the city's estimated production of rice is 293.5 metric tons or 5,870 cavans. This production quantity is not sufficient to supply the demand required for rice by the total population of the city which is 640,065 cavans (299,096 population x 2.14 cavans) considering the standard per capita requirements of 2.14 cavans. To satisfy and meet the demand of the populace, the city has to depend its rice supply requirements from the provinces of Mindoro Oriental/Occidental and the Central Luzon provinces.

Though Batangas City has limited production of rice, other crops such as vegetables, rootcrops, corn and fruits like mangoes, atis, tamarind, and bananas are highly produced in the area.

The city government through the OCVAS has launched a massive program on yellow corn production among its identified beneficiary farmers. Considered as a high value crop, yellow corn is a major ingredients in the livestock feed processing industry (feed millers).

TABLE 54. AGRICULTURAL PROFILE
Batangas City
CY 2006

I. Farming

a) Number of farmers - 10,000

b) List of Farmers Association:

Name of Farmers Assn.	President/Chairman	No. of Members
1. Batangas City Yellow Corn Growers Assn. (BCYCGA)	Roel Garcia	108
2. Batangas City Eggplant Growers Association (BCEGA)	Felimon Cantos	37

c) Area devoted to Farming by Crops & Yield

Crops	Area Planted (has.)	Ave. Prodn./ha. (MT)	Total Prodn. (MT)
Rice - (Lowland/Irrigated)	----	----	----
(Rainfed)	33.00	3.50	115.50
(Upland)	89.00	2.00	178.00
Corn

Mongo	44.00	1.20	52.80
T O T A L	**7,454.5**	**84.48**	**41,208.35**

***Note:** *Crops affected by typhoon "Caloy"*

d) Farm Ownership - Owner operator/tenant will arrange landholdings of 1.5 has.

e) Irrigation - none

f) Farm Practices - Multiple cropping with particular emphasis on sustainable agriculture

g) Average Farm Income by Crops per hectare:

Crops	Cost of Prodn./ha. (P)	Ave. Income/ha. (P)
Rice	P 10,000.00	P 20,000.00
Corn	25,000.00	20,000.00
Vegetables	10,000.00	20,000.00
Rootcrops	10,000.00	30,000.00
Coffee/Cacao	10,000.00	20,000.00
Chico	8,000.00	40,000.00
Atis	10,000.00	40,000.00
Mango	40,000.00	80,000.00
Tamarind/Sineguelas	6,000.00	24,000.00
Banana	12,000.00	40,000.00
Coconut	15,000.00	40,000.00
Sugarcane	30,000.00	70,000.00

h) Average per Capital Consumption

1. Rice ..... 107.50 kg.
2. Corn ..... 3.00 kg.
3. Vegetables :
   - Leafy Veg. ..... 25.10 kg.
   - Fruit Veg. ..... 3.30 kg.
   - Legumes ..... 5.60 kg.
4. Banana ..... 13.00 kg.
5. Papaya ..... 3.30 kg.
6. Mango ..... 5.60 kg.
7. Calamansi ..... 2.40 kg.
8. Citrus ..... 1.10 kg.
9. Pineapple ..... 2.80 kg.
10. Atis ..... 2.00 kg.
11. Meat ..... 0.35 kg.
11. Others ..... 2.00 kg.

i) Marketing of Farm Products:

- through cooperative
- direct linkage to buyer/wholesaler
- middlemen
- QUEDANCOR Rural Credit Guarantee Corporation

j) Source and Type of Financing

- City Fund for livelihood products loaned through cooperatives
- Land Bank (Agricultural Loan)
- Private

k) Fertilizer and Chemical Used

Fertilizer - Organic Fertilizer
Inorganic Fertilizer (14-14-14, 46-0-0, 21-0-0)

Insecticide - Insecticide, Fungicide, Flower Inducer for Mango

II. Fishing and Aquatic Resources

a) Shallow Fishing

No. of Fishermen 795

No. of Bancas

a) Motorized..... 553
b) Non-motorized..... 29

- Volume of Production (Catch)

a) Motorized.....
b) Non-motorized..... } 1,025 tons

b) Commercial Fisheries (3 tons above)

1. Number of fishing operators - 1
2. Number of fishing boats - 1
3. Number of licensed fishermen -
4. Volume of production - 2.0 tons

C) Name of Fishermens Association & Location/Contact Person/No. of Members

Name of Association	President/Address	Number of Members

4.2. TRADE AND COMMERCE

4.2.1 Public Market

The city has three existing public markets. The old city market in the Poblacion which was destroyed by fire in 1982 was rehabilitated/redeveloped in CY 2006. Dry and wet sections are the main commodities that can be found in the old market.

The other market is the Don Julian Pastor Memorial Market in Barangay Cuta which is approximately 800 meters away from the old market and was constructed in 1977. This is also serving as the "bagsakan area" for locally produced fruits and vegetables.

The third market which was completed in 1993 thru a financial assistance provided by the Economic Support Fund Secretariat (ESFS) under the Office of the President and the U. S. Agency for International Development (USAID) is adjacent to DJPMM with 363 stalls for fruits/vegetables and dry goods.

4.2.2 Commercial Area

The identification of the city as an industrial growth center in the CALABARZON region resulted in the increasing number of business establishments not only within the city Central Business District (CBD) but as well as in the Pallocan-Gulod, Kumintang-Alangilan-Balagtas areas. At present, there are several four to five storey commercial buildings already constructed in the city. Several of the existing business establishments in the city have already been improved and renovated or were demolished for reconstruction and redevelopment.

4.2.3 City Slaughterhouse and Cattle Auction Market

The City's slaughterhouse was constructed in Barangay Sitio Ferry, Kumintang Ibaba. The operation of the slaughterhouse is highly mechanized and its management, operation and maintenance is being leased by the city government since December 2001 to Sorosoro Ibaba Development Cooperative, Inc. (SIDCI).

The City's Cattle Auction Market is located adjacent to the Office of the City Veterinarian and Agricultural Services in Barangay Bolbok. The auctioning of livestock particularly cattle is regularly being done every Wednesday and Thursday. Its management and operation is under the administration of the city government.

5. INFRASTRUCTURE AND UTILITIES

5.1 Roads and Bridges

As of CY 2006, the total length of all roads in the city are approximately 468.49103 kms. comprised of 75.06500 kms. of national roads, 23.17800 kms. of city roads and 370.24803 kms. of barangay roads.

The inventory showed that the total length of asphalt paved roads are 68.72520 kms., concrete paved roads were 283.69157 kms. while gravel roads are 54.12048 kms and the unpaved road totaled to 61.95378 kms.. The record indicated that there is an increase in the length of concrete paved roads as compared to last year of is 279.858 kilometers.

Table 83 listed the 35 existing bridges along national and barangays roads in Batangas City including the length in meters, descriptions and conditions.

5.2 Transportation

5.2.1 Land Transportation

Land transportation services in the city are readily available by bus, public utility jeepneys, privately owned cars, vans, jeeps, and tricycles. For trips going to Metro Manila and neighboring provinces, the commuters can avail the public utility bus system, the largest of which is the Alps, The Bus Inc. which has 55 units followed by Supreme Transit Liner Inc. which has 35 units of bus.

With the implementation of the City's New Traffic Ordinance, public utility jeepney routes thru color and number coding scheme have been enforced. Parking areas and PUJ terminals have been designated for the different routes. With the devolution of power to grant franchises for tricycle operation from the Land Transportation Regulatory Board (LTFRB) to the Batangas City Government, tricycle operators can now apply for their franchise from the Transportation Development and Regulatory Office under the Office of the City Mayor. Like the public utility jeepneys, tricycles plying in the poblacion operates also through a color coding system. The tricycle franchise issued in CY 2001 were limited only to 1,000 units however it was increased to 1,807 in CY 2006 as approved by the Sangguniang Panlungsod.

In an effort to address the worsening traffic problems in Batangas City, the city government has installed traffic signal lights along the seven (7) major intersections which was implemented in CY 1998 including the installation of one hundred twenty three (123) traffic signages.

In CY 2001, the city government installed a Central Control Television (CCTV) Camera along P. Burgos St. and Rizal Avenue and two (2) overhead Variable Message Signs (VMS) along the National Highway in Kumintang Ibaba and P. Burgos St. infront of the City Hall as components of city transportation/traffic management program.

Air Service

There is no existing airport in Batangas City. Helicopters use the Batangas National High School ground, the Quezon Memorial Stadium and the Camp General Miguel Malvar (PNP Provincial Office Compound) in Barangay Alangilan as landing and take off areas.

5.2.2 Water Transportation

The Batangas Port Phase I under the administration of the Philippine Port Authority is presently considered the most modern and user friendly seaport in the country today. The port was expanded and developed in order to efficiently serve the neighboring island provinces of Mindoro Oriental, Mindoro Occidental, Romblon and Palawan and to further serve the development potentials of the CALABARZON and MIMAROPA Regions. The newly constructed foreign and domestic general cargo berths are vital to the demand requirements of foreign and domestic trades. The port also serves to supplement the facilities of the Port of Manila.

Berth facilities on the newly constructed Batangas Port Development Project/Phase I consist of the following:

1. One (1) Foreign General Cargo Berth 185.0 m. long and with 10.0 m. depth.
2. One (1) Multi-Purpose Berth 203.0 m. long and with 10.0 depth.
3. One (1) Domestic General Cargo Berth 120.0 m. long and with 6.0 depth.
4. One (1) Ferry Berth 124.0 m. long and with 4.0 depth.
5. Four (4) Ro-ro Berth Type and with 5.0 m. depth.
6. Two (2) Ro-ro Berth Wharf Type and with 5.0 m. depth.
7. Seven (7) Fast Craft Berth 70.0 m. long.
8. Small Crafts (Batel) Berth.

Other facilities are: storage areas, vehicle parking, passenger terminals and vendor's facilities.

In August 2006, the Philippine Ports Authority completed the Phase II component of the Batangas Port Development Project with an estimated total project cost of P2.885 Billion. The funds used for the project is part of the loan from the Japan Bank for International Cooperation (JBIC) formerly the OECF.

The constructed facilities of the BPDP Phase II include the following:

1. Dredging of inland part to 13 meters depth.
2. Reclamation of 64 hectares port area.
3. Construction of container berth with a length of 450 L.M.
4. Construction of container yard.
5. Construction of road network (flyover is presently under construction)
6. PPA Main building/pavement/warehouse/maintenance shop

The role of project is to provide access to cargo trade between the CALABARZON area and the rest of the country and the world, as well as to serve as a supplementary port to cargoes that can no longer be accommodated at the port of Manila. It will definitely promote both domestic and international trade that will enhance economic growth for the country.

5.3 Water Supply

The Batangas Water Supply System was jointly constructed by the Governments of the Philippines and the United States of America in 1926. It was first supervised and managed by the Bureau of Public Works while the local operation and management were undertaken by the Batangas Municipal Government. In 1957, the system was turned over to NAWASA and fourteen (14) years later, the city government decided to manage its own system.

Under Presidential Decree No. 128, the Batangas City Water District (BCWD) was subsequently created as an autonomous entity duly certified by the Local Water Utilities Authority (LWUA) which provided financial and technical assistance to the water district. The waterworks system was formally transferred by the city government to the BCWD in 1975.

The Batangas City Water District supplies water to its beneficiaries by pumping from ground water deepwells and distributing to its consumers thru the following systems:

a. to Low Level Zone - By gravity from reservoir passing thru the Break Pressure Chamber

b. to Medium Level Zone - gravity flow from reservoir

c. to High Level Zone - direct-to-line pumping from Soro-Soro Karsada pumping station supported by booster pumping from the Alangilan pumping center.

d. Supplement to Medium - direct to line pumping from Kumintang and Calicanto and Low Level Zones pumping center.

e. For the barangays far from the main service area, there are separate water supply system for Paharang Kanluran, Dumantay and Dalig using direct-to-line pumping.

The average water supply/production capacity/month for the year 2005 is 802,000 cubic meters while the average demand/consumption capacity/month is 505,000 cubic meters. The kilometers of mains used is 164.215 kilometers.

Rural Barangays Water Supply

Thru the financial assistance of the USAID, seven (7) rural barangays have been provided with waterworks system under the Barangay Water Program (BWP) in the 1980's. These barangays are Tingga Itaas, Concepcion, Tulo, Banaba East, Balete, Sampaga and Sampaga West-Pallocan East.

To date, a total of forty-five (45) barangays with a total of 60 Rural Waterworks Associations were provided level III waterworks system by the city government.

Barangays Malibayo, Talumpok Kanluran/Silangan, Cumba, Haligue Silangan/Kanluran, Maruclap, Pinamucan Silangan and Ilijan Sitio Lilinguiwan get their water supply requirements from spring with storage facilities while other rural residents get their water supply requirement from artesian wells and shallow well pumps.

5.4 Power Supply

Out of the total 105 barangays in the city, ninety-three (93) barangays are being provided by the Manila Electric Company (MERALCO) with electricity. Two other barangays namely San Jose Sico and Talumpok Silangan are being served by the Batangas Electric Cooperative II (BATELEC II).

With regards to the six barangays located in Verde Island, the residents depends on diesel fired power generators and solar energy devices for their electricity requirements.

To date, there are still four (4) barangays in the mainland which are not provided with electricity but are already included in the priority list of MERALCO's Rural Electrification Expansion Program. These barangays are Dela Paz Proper, Dela Paz Pulot Itaas, Dela Paz Pulot Aplaya and Talahib Pandayan.

5.5 Communications and Mass Media

5.5.1 Radio Stations

There are five (5) radio stations comprised of four (4) FM and one (1) AM frequencies presently operating in the city namely: the 99.1 Spirit FM, Baycomms Radio (DWEY-FM), Manila Broadcasting Co., Radio Natin FM, Campus Radio FM and the DWAW-AM. These radio stations provide varied entertainment/information programs for the residents of the city and other nearby localities within the province.

5.5.2 Telegraph/Telegram/Messengerial (Courier) Services

The government owned telecommunication office (DOTC) provides both the telex and telegraph services. In addition, there are nine (9) messengerial services operating in the city which include the Philippine Postal Corporation, Telecommunication Office (DOTC), JRS Express, WWW Express formerly DHL Philippine Corporation, LBC, Universal Storefront Services Corporation (formerly RCPI), Abest Express, 2GO and M&M Services (formerly Federal Express).

5.5.3 Telephone System

The Philippine Long Distance Telephone Company (PLDT) has a total of 17,191 subscribers as of CY 2006, wherein 12,906 are residential and 4,285 are commercial.

The Globe Telecom, a telecommunication company which started operating in the city since 1996 has also provided 7,069 land line connection services. The Digital Telecommunications Philippines, Inc. (Digital) which is the third telephone landline service provider in the city has 5,604 subscribers. Additionally, mobile phone services are presently being provided by Smart, Globe Tel., Sun Cellular and Nextel.

5.5.4 Publication

All daily circulated national newspapers, tabloids and magazines from Metro Manila are readily available in the city. There are also six (6) locally published newspapers like the Batangas Post, Batangan, Batangas Ngayon, Puntong Ala Eh, Sun-Star People's Courier and Diyaryo Veritas sa Batangas which are being circulated regularly.

5.5.5 Internet Service Provider

Batangas City is also updated with the latest communication technology which is common already among the major cities in the country. Everyone can avail of internet service right in their home, office and in internet cafés operating in the city. There are four (4) internet service providers in the city which includes the PLDT Company, Innove Telecommunications (Globe), Digital Telecommunications Phils., Inc. and the NetQuest Systems Company.

6. *PUBLIC FINANCE*

6.1 CITY ANNUAL BUDGET, CY 2005 - 2006

Batangas City's Annual Budget for Calendar Year 2005, totalled to P729,474,626.00. It was augmented by six (6) supplemental budgets with a total of P223,844,869.36 thus increasing the total budget to P953,319,495.36. Of this amount P430,735,645.00 or 45% was allocated for expenditures by office, P273,191,365.86 or 29% was allocated for non-office expenditures and the remaining P249,395,484.50 or 26% was allocated for capital outlays.

For Calendar Year 2006, the city's Annual Budget totaled to P802,310,045.00. It was augmented by three (3) supplemental budgets with a total of P266,353,514.97 thus increasing the total budget to P1,068,663,559.97. Of this amount, P487,051,924.65 or 45.58% was allocated for expenditures by office, P350,235,226.46 or 32.77% was allocated for non-office expenditures and the remaining P231,376,408.90 or 21.65% was allocated for capital outlays.

6.2 COMPARATIVE REVENUE AND RECEIPTS CY 2005-2006

The revenue realized by the Batangas City Government for Calendar Year 2005 totalled to P820,798,321.71.

The Local Government shares in the Internal Revenue Collection or the Internal Revenue Allotment (IRA) in the amount of P304,485,969.00 is still the biggest source of revenue for the city government which constitutes almost 37.09% of the total income. This is followed by business taxes which constitutes 27.02% amounting to P221,794,832.56.

Real property tax is the 3rd biggest source of income which constitutes more than 20.91% of the city's income for a total income of P171,653,589.50. Table 90 showed an increase of 7.77% or P12,385,753.05, due to the first year payment of Pontifino Hotel and SM City Batangas. Amusement Tax also showed a tremendous increase from P559,399.71 to P4,300,364.30 which is also due to the payment of cinemas and various games and amusements center in SM City Batangas.

For CY 2006 the total income realized by the City Government of Batangas amounted to P922,429,211.19 which is 12.38% higher than that of CY 2005 which amounted to P820,798,321.71.

Of this amount, the Internal Revenue Allotment amounting to P322,998,873.00 is still the biggest source of revenue which constitutes 35.01% of the total income. This is followed by Business Tax amounting to P292,234,657.45 which constitutes 31.68%. The third biggest source of income is the Real Property Tax in the amount of P174,182,253.02 which constitutes more than 18.88%.

6.3 COMPARATIVE EXPENDITURES FOR CY 2005-2006

For CY 2005, the City Government of Batangas has incurred a total expenditure of P821,995,816.86, of this amount almost 28% was spent for capital outlay in tha amount of P227,333,898.90.

A big part or about 89% of CY 2005 capital outlay was allocated for the construction, repair, betterment and improvement of various infrastructure and other facilities in the different barangays of Batangas City.

Per reference to Table 91, the amount allocated for CRBI projects in CY 2005 was P152,281,278.11.

The decrease in the personal services of about 4% was due to reduction of the contractual employees of the city government for CY 2005. However, the increase of about 9% in the maintenance and other operating expenses was due to the increase of MOOE of some city government offices due to the increase of prices of basic commodities like fuel and oil, supplies and other materials.

For CY 2006, the City Government of Batangas has incurred a total expenditure of P902,458,538,.49 which is almost 10% higher than the expenditures of CY 2005 amounting to P821,995,816.86.

The reduction in the Personal Services and Maintenance and Other Operating Expenses for CY 2006 was due to the transfer of Public Transport Planning and Management, Medical/Dental Care Program and Waste Management and Garbage Disposal Program from Expenditures by Office to Non-Office Expenditures which also increased the said expenditures to almost 144%. (*please see Summary of Expenditures at Table 91*)
